### **DETAILED ACTION**

This action is in response to Amendment filed April 16, 2004. Claim 13 has been amended as requested by the applicant.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

5. The optical element of claim [4] 1, wherein at least part of the incoming light that has been transmitted through the second member is reflected from both the first and second reflective regions so that the incoming light is retro-reflected.

### ***Election/Restrictions***

Claims 1 and 18 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 7, 8, 13 and 20, directed to the species of III and VIII no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double

patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### ***Response to Arguments***

Applicant's arguments, see Amendment, filed April 16, 2004, with respect to claims 1 and 18 have been fully considered and are persuasive. The rejection of claims 1 and 18 has been withdrawn.

### ***Allowable Subject Matter***

Claims 1-3, 5-13, 17-20 and 28-36 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 17 and 28, the reasons for allowance are the same as in the previous office action.

Regarding claims 1 and 18, the prior art of record fails to teach or suggest an optical element with first and second members, each having three triangular concave portions, with the concave portions of the first and second opposed to each other and the optical element comprising a plurality of cubic corner cubes.

The remaining claims depend from claims 1 and 18 and are therefore allowable for the same reasons stated above.

Art Unit: 2872

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
